MID TERM IACI - 2017

We take immense pleasure in hosting the Mid Term IACI at Chennai on 6th and 7th May 2017. This is the first time the Mid Term CME of IACI being conducted in vibrant Chennai.

Cardiac imaging is now emerging strong with the development of modern multislice CT and MRI with higher gradient strengths.

We have galaxy of speakers, specialising in cardiac imaging to share the experience and also provide insights into the complex issues associated with it.

We welcome one and all to experience the interesting world of cardiac imaging at Chennai
